

Arsenii Tkachuk

Junior Fullstack Developer | .NET & Node.js

- **Location:** Ukraine (Remote / Relocation)
 - **Tech Stack:** JavaScript (Vue.js, Node.js), C# (.NET, Unity), Python, C++, SQL & NoSQL.
 - **OS:** Arch Linux (bspwm) — Experienced in CLI-driven workflows and system customization.
-

Summary

Ambitious Software Engineer with a strong focus on clean, modular code and architectural patterns (SOLID, Clean Architecture). 3+ years of self-driven learning and hands-on experience in building full-stack web applications and game logic. Proactive learner with a deep understanding of backend systems, Linux environments, and automated workflows.

✂ Technical Skills

- **Backend:** Node.js (Express), .NET Core, Python (FastAPI/Flask), C++.
 - **Frontend:** Vue.js, HTML5, CSS3 (SCSS), JavaScript (ES6+).
 - **Databases:** PostgreSQL (Relational) & MongoDB (NoSQL) — skilled in CRUD operations and schema design.
 - **Tools & Environment:** Git, Docker, Arch Linux, Unity Engine.
 - **Architecture:** SOLID, DRY, Modular Monolith, Clean Architecture.
-

Key Project: "EduTest Pro" (Fullstack LMS Platform)

A comprehensive Learning Management System for teachers and students.

- **Authentication:** Implemented secure multi-method login via Google OAuth2 and Email OTP (One-Time Password) verification.
- **Complex Logic:** Engineered a dynamic test builder supporting multiple question types: single/multiple choice, matching pairs (including distractors), and open-ended text answers.
- **Anti-Cheat System:** Developed a custom tracking feature that monitors student activity and logs "page leave" events during examinations.

- **Hybrid Data Management:** Designed a robust architecture using both relational structures for user roles and NoSQL (MongoDB) for flexible test content storage.
 - **Frontend:** Built a responsive, reactive UI using Vue.js featuring a teacher's dashboard and a streamlined testing interface.
-

Experience & Education

- **College of Computer Science:** Software Engineering (Current Student).
 - **Self-Education (3+ years):** Intensive independent study of Python, C#, and Modern Web Technologies.
 - **Game Development:** Created several projects in Unity (C#), focusing on complex game mechanics, state management, and OOP principles.
-

Languages

- **Ukrainian:** Native.
 - **English:** A2.
